- ↗ **UV and Blue Light Protection:** Shields against harmful rays
- ↗ **Reduced Visual Fatigue:** Enhances comfort
- ↗ **Stylish Options:** Two trendy, natural color choices

SAFEGUARD YOURSELF AGAINST
UV RAYS AND BLUE LIGHT →

Neochromes lenses shield your eyes by **blocking 100% of harmful UVA and UVB rays.**

They're effective in filtering out blue light, particularly outdoors. Though the blue light from devices like smartphones, tablets, and computers is lower than sunlight, it can still impact your eyes. Neochromes lenses are designed to reduce your exposure to blue light and protect your vision.

UV
Block 100% of UVA and UVB rays

BLUE LIGHT
Filter out a high proportion of harmful blue light
