- **UV and Blue Light Protection:** Shields against harmful rays
- **Reduced Visual Fatigue:** Enhances comfort
- **Stylish Options:** Two trendy, natural color choices

## SAFEGUARD YOURSELF AGAINST UV RAYS AND BLUE LIGHT →

Neochromes lenses shield your eyes by **blocking 100% of harmful UVA and UVB rays.**

They're effective in filtering out blue light, particularly outdoors. Though the blue light from devices like smartphones, tablets, and computers is lower than sunlight, it can still impact your eyes. Neochromes lenses are designed to reduce your exposure to blue light and protect your vision.

Block 100% of UVA  
and UVB rays

Filter out a high proportion  
of harmful blue light

AVAILABLE IN  
**GRAY AND BROWN**

## DARK

Neochromes Dark is an extra-dark lens that quickly adapts in bright conditions, perfect for those sensitive to light or in sunny places. It works even behind glass, like when driving, offering full UV protection and filtering blue light indoors and outdoors for complete eye safety.
