Neochromes swiftly adapt to changing light conditions
- **Enjoy swift performance:** darken in seconds and return to clear in minutes
- **See clearly** with enhanced contrast and clarity
- **Stay protected** from harmful UV rays and blue light
- **Feel greater comfort,** reducing visual fatigue
- **Elevate your style**

## SAFEGUARD YOURSELF AGAINST UV RAYS AND BLUE LIGHT →

Neochromes lenses shield your eyes by **blocking 100% of harmful UVA and UVB rays.**

They're effective in filtering out blue light, particularly outdoors. Though the blue light from devices like smartphones, tablets, and computers is lower than sunlight, it can still impact your eyes. Neochromes lenses are designed to reduce your exposure to blue light and protect your vision.

Block 100% of UVA  
and UVB rays

Filter out a high proportion  
of harmful blue light

AVAILABLE IN  
**GRAY AND BROWN**

**NEOCHROMES®**  
Embrace the light
